Officers Are Elected For The
Ensuing Year

A very interesting and enthusiastic meeting of the Knox County Pomona Grange was held with Wayne Grange Saturday at which time the following officers were elected and all installed with two exceptions after a bountiful dinner was served by the ladies of Wayne grange.

W. Master—Alfred Anderson.
W. Overseer—Chauncy Purdy.
W. Lecturer—Mrs. Anderson.
W. Steward—Stewart Weller.
W. A. Steward—Joseph McGugin.
W. Chaplin—Mrs. Wm. Rush.
W. Treasurer—D. B. Kerr.
W. Secretary—G. W. Tulloss.
W. Gate Keeper—O. E. Nixon.
W. Ceres—Alice Mendenhall.
W. Pomona—Winifred Rush.
W. Flora—Mrs. G. W. Tulloss.
W. L. A. Steward—Sylvia Dean.

The lecturer's program consisted of music, a recitation by Marie Darymple, an interesting letter being read from Mrs. McClelland, who is visiting at Washington, D. C., and Norfolk, Va., and the discussion of the following questions:

"Shall the Knox County Pomona grange take any cognizance of the lobbying question in our state legislature, and are we wrong in maintaining a lobby there?"

The following resolution which was adopted brought out a spirited discussion:

Whereas, we note with much interest and pleasure the interest the Merchants' Association of Mt. Vernon is taking in the matter of the hitching places that were recently mysteriously removed from the main street of the city; and

Whereas, owing to the congested condition of Main street at times, we would not blame the city much if they would remove the hitching places from Main street; and

Whereas, we appreciate the accommodations afforded by the ten cent barns, yet, be it resolved, by the Knox County Pomona grange in session assembled that we believe it would be greatly to the interest of the city and to the accommodation of the public for them to provide ample hitching facilities on the side streets adjoining the main thoroughfares.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer. For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-relieving Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray is a remedy that relieves at once. All druggists, 75c., including spraying tube, or mailed by Ely Bros., 56 Warren St., New York.

DEAF EAR

Turned To Protests Against
Race Lines

Cleveland, O., April 20.—Undergraduates of Oberlin College are drawing sharp lines of discrimination against the negro. Old alumni can hardly believe it. Professors and college officials nevertheless admit that race prejudice has slowly but surely eaten its way into the social vitals of the institution.

Letters of protest are pouring into the college town by the score. Public indignation meetings are being held by graduates throughout the state. And yet the negro is beyond question barred from enjoying equal privileges in Oberlin.

Literary societies which profess to be open to membership without consideration of race or color have lately issued the edict against the negro.

Choirs in churches whose history is a real part of that of the college are turning a deaf ear to the application of the negro singer. College boarding houses no longer will allow the negro to eat at the same table with the white man.

In athletics conditions are much the same. A negro may try for any of the teams, but he finds it hard to land a place. The track team management has issued an ultimatum to the negro students to the effect that when the team goes to Columbus soon negro athletes will have to find their own hotel quarters and shift for themselves.

PIGEON

Run Over By A Street Car
And Killed

A very uncommon occurrence took place on the public square Wednesday morning about nine o'clock. An east bound street car was going around the curve near the Tanager drug store when a flock of pigeons, which had been sitting on the street, took flight. One of the birds, for some reason, did not start to fly in time and was caught under the car. In an effort to escape from the side between the wheels, it was caught by one of its tail feathers and part of one of its wings were cut off and the bird was so badly crippled that it was immediately killed in order that it would not suffer. The remarkable part of the affair was that the car was running at a very low rate of speed at the time the pigeon was run over.

HEMORRHAGES

Prevented By A New Method
Of Surgery

Baltimore, Md., April 20.—Dr. E. H. Richardson, of the gynecological department at John Hopkins Hospital, is meeting with much success in a new method of surgery for the kidneys. He uses a fine, threadlike silver wire, which is drawn back and forth through the affected organ.

In the old method of kidney surgery the knife is used, and it often produces hemorrhages in an uncontrollable extent. The silver wire method, instead of cutting through the flesh, works its way through the vessels instead of severing them. Besides being a valuable adjunct to surgery it is said to be invaluable for exploring the kidneys.

The method was suggested by Max Bredel, an artist, who makes a specialty of drawings of the human organs. It consists of threading a blunt needle with the wire, making an incision about the affected part and drawing the wire through the kidney, see-saw fashion, to the extent desired.
